Important information about the artwork preparation

- 4 color halftone print 
- Use of **vectorised data**
(text parts converted into outlines or paths) 
- Images needed in **CMYK** color mode
- **Max. print width 297 mm** in one print axis
- Slight register differences may occur with full-surface printing (thin lines)

- Templates for the artwork preparation can be found at the download section on our homepage

- The blue square at the templates marks the printable area 

- Free PDF demo for approval
- Data transmission up to 5 MB by e-mail to **design@europack.at**. For bigger sizes please use WeTransfer.

Price Information

Surcharge	
2nd print side	€ 0,20
Print bigger than 250 cm ²	€ 0,10
Express print service	€ 50

GENERAL TERMS AND CONDITIONS

Lambach, Juni 2022

1. scope of application

The buyer hereby irrevocably accepts the following terms and conditions of purchase and delivery. Deviating agreements, in particular contradictory terms and conditions and supplements require the written consent of the seller.

2. offer and acceptance

If the printing material is provided by the purchaser and is not suitable for production, the order in question may be rejected by the management at any time. The review and assessment in this regard shall be the sole and final responsibility of the Seller or a person appointed by the Seller. If it only becomes apparent after the order confirmation has already been issued that the print

If it only becomes apparent after the order confirmation has already been issued that the print documents are not suitable, the seller shall have the right to withdraw from the order. In the event of order rejection or withdrawal, any liability of the Seller for costs and damages shall be excluded. All expenses incurred by the seller up to that point, but at least 30% of the order amount, can be charged to the buyer. It is further stated that once a Buyer has received an order confirmation and is cancelled for whatever reason, the Seller shall be entitled to charge 30% of the order amount to the Buyer.

3. prices

The prices quoted are exclusive of statutory value-added tax and ARA; the costs of film or printing plate costs, and die-cutting costs in the case of in-house productions, are also quoted in addition. In the event of default, cessation of payments or insolvency, any discounts granted shall lapse and any amount subsequently invoiced shall be due immediately.

4. delivery time

Delivery times are non-binding, delivery dates stated by us are always only approximate, although we always strive to meet stated deadlines. The month of August as a vacation month and the days between Christmas and Epiphany cannot be counted towards the delivery time. We are only liable for damages caused by delay in case of intent and gross negligence.

5. delivery

Delivery shall be made for the account and at the risk of the Buyer. The Buyer shall bear the transport risk even if the Seller has agreed to bear the freight costs. Partial deliveries are permissible and will be invoiced upon delivery. The delivery period begins with the clarification of all documents necessary for the fulfillment of the contract. In the event of subsequent changes to the order, the originally promised and confirmed delivery period shall be extended accordingly. In the event of force majeure and impossibility of performance for which the seller is not responsible (e.g. natural disasters, measures taken by the public authorities, material shortage, etc.), the delivery period shall be extended accordingly.

In the event of force majeure and impossibility of performance for which the Seller is not responsible (e.g. natural disasters, measures of public authorities, shortage of materials, operational disruptions, traffic difficulties, strike, lockout and other interruptions of operations, etc.), the Seller shall have the option to reasonably extend the agreed delivery period or to withdraw from the contract without this giving rise to any claims for compensation. Delays in delivery due to change requests of the Buyer shall not be at the expense of the Seller. If the Seller is in default, the Buyer shall be obliged to set a reasonable grace period of at least six weeks in writing before asserting further claims or declaring withdrawal from the contract. Withdrawals or cancellations by the Buyer for special reasons shall only be valid if confirmed in writing by the Seller.

6. transport insurance

Each parcel shipment is insured by our parcel service for € 550,- each and each general cargo shipment by forwarding agent for € 2.500,- each. We guarantee a properly and carefully packed shipment. Furthermore, we undertake that the shipments will be delivered to the first lockable door. The seller's liability is transferred to the customer at the first lockable door. Additional insurances are at the customer's own discretion.

7. manufacturing notes

Goods delivered by the Seller may be marked with manufacturing notes.

8. execution

Samples only reflect the approximate failure of the work.

9. printing documents

The seller accepts no liability for printing documents provided which are altered, damaged or rendered unusable during production. Printing material provided will only be returned upon request and at the expense of the purchaser. The seller shall not be liable for the printing results of third-party printing plates. The Buyer shall be responsible for checking the right of reproduction and copyright of documents provided by him. The printing documents prepared by or on behalf of the Seller shall be invoiced separately. They shall remain the property of the Seller even if the costs thereof are reimbursed by the Buyer. The Buyer shall not thereby acquire any right to the surrender of these items. The above provisions shall apply mutatis mutandis to designs and samples prepared by the Seller. These may not be used by the Buyer without his express permission. The Contractor shall not be liable for printing errors if a print has already been approved by the Purchaser. Printing quality defects: In case of doubt, it shall be assumed that any defects are due to defective printing documents. The burden of proof to the contrary rests with the purchaser.

10. printing

Prints are made using different printing methods depending on the bag design. The seller uses normal printing inks for printing. If special demands are made on the inks, e.g. light resistance, alkali fastness, abrasion resistance, etc., the Purchaser must make special reference to this in writing when placing the order. The abrasion resistance of the printing inks, especially in the flexographic printing process, cannot be guaranteed. The seller shall not be liable for any consequential damage resulting from ink abrasion. Prints on different materials inevitably result in different optical color and surface effects. Register fluctuations cannot be ruled out; in flexographic printing inline, the register fluctuation can be max. 2 mm.

11. excess or short delivery

Deviations in weight, thickness, fabric and color of the goods due to technical reasons, customary in the trade as well as other minor deviations shall not be grounds for complaint. Dimensional deviations: For production-related reasons, the following dimensional deviation is permissible for all deliveries: Paper and plastic in width +/- 5%, in height +/- 5%. Deviations in the weight per unit area are to be accepted by the purchaser to the same extent as they are to be tolerated by the seller according to the delivery conditions of the producers of the materials used. Unless otherwise specified in these terms of delivery, a tolerance of +/- 10 % shall be deemed agreed. Quantity deviations: For all fabrications, excess or short deliveries of up to 20% of the ordered quantity are permissible with invoicing of the actual delivery.

12 Warranty

Notifications of defects must be made in writing by the purchaser without delay, but at the latest within one week of receipt of the goods at the place of destination, otherwise they shall not be dealt with belatedly. Reservations regarding the quality on the delivery or counter bills or other documents shall be deemed not to have been made. A proportion of defective goods of up to 5% of the total quantity of the delivery concerned shall be tolerated by the Buyer, irrespective of whether the defect is due to processing or printing or material. Likewise, minor color deviations will be tolerated by the buyer. The Buyer shall specify the alleged defects and prove them to the Seller. At the request of the Seller, the Seller shall be given the opportunity to determine the defect complained of on site. In the case of timely raised and justified notices of defect, the Seller shall be obliged, at his discretion, to either repair the defect or to deliver a replacement free of defects, whereby he shall be granted the time and opportunity necessary to remedy the defect, if any, at his discretion. Compensation for consequential damages of any kind whatsoever shall be excluded without exception.

13. storage instructions

It is best to store the bags in the outer carton. A sufficient distance from heat sources must be maintained. Do not place the goods on outside walls and store them in dry, dark rooms at a temperature of approx. + 10°C to approx. + 20°C.

14. retention of title

Until full payment of the invoice amount, the seller reserves the right of ownership to the delivered items. If the delivered items or even only parts thereof are seized, the Buyer shall be obliged to inform the Seller thereof in writing without delay, attaching a seizure report if available.

15. terms of payment

Payments are to be made within 14 days from the date of invoice net without deduction, unless another payment term is agreed. In the case of advance payment by the Buyer, the order shall be deemed accepted by the Seller only after receipt of the amount. In the event of non-payment of the agreed advance payment, the Seller shall be entitled to withdraw from the order and to charge damages in the amount of 30% of the order total. In the event of default in payment, interest on arrears in the amount of 12 % p.a. shall be deemed to have been agreed, without prejudice to any further claims of the Seller. Bills of exchange and checks shall only be accepted by separate agreement and exclusively on account of payment. Without exception, the Buyer shall not be entitled to withhold or set off any claims of any kind whatsoever.

16 Place of Performance and Jurisdiction

The place of performance and jurisdiction for both domestic and foreign purchasers shall be BG Wels. The exclusive application of Austrian law shall be deemed agreed. The legal invalidity of any part of the above terms and conditions shall not affect the validity of the remaining content, or the terms and conditions of the Austrian printing and folding carton industry shall apply.

17. default of acceptance

If the Buyer refuses to accept the purchased items after the expiry of a reasonable grace period granted to him or expressly declares in advance that he does not wish to accept them, the Seller may withdraw from the contract or claim damages for non-performance. As damages for non-performance in the event of default in acceptance, the Seller may claim 30% of the purchase/order price without deductions as liquidated damages. In all other cases, however, the Seller reserves the right to claim higher, proven damages, such as in the case of custom-made products.
